Description: This addendum aims to inform that the Ministry of Agriculture, Livestock and Food Supply - MAPA has issued the Technical Regulation no. 58, 02 October 2020, amending the annex I of the Technical Regulation no. 52, 07 November 2011, notified under the code G/TBT/N/BRA/351/Add.1, to increase the maximum levels of crude fiber content for cassava flour, considering that the current cassava varieties are presenting higher values of fiber. It was concluded that such change does not harm the consumer.

This Technical Regulation is effective 03 November 2020.
