## NOTIFICATION

### *Addendum*

The following communication, dated xx October 2014, is being circulated at the request of the delegation of the Brazil.

---

This document aims at informing that the Mercosur Technical Resolution number 23/04 approving technical and security requirements as well as conformity assessment procedures for toys by the Inmetro Ordinance N°108/2005 (Portaria Inmetro N°108,13/6/2005) and notified under the document G/TBT/N/BRA/116/Add.1 was amended by the Inmetro Ordinance N° 459/2014 (Portaria Inmetro N° 459, 10 de outubro de 2014) in order to assure that every toy sold in the country must meet the minimum security requirements by the mandatory limit of the maximum permissible exposure of a light source that is considered safe (laser radiation sources) (1mW).
