

## NOTIFICATION

### *Addendum*

The following communication, dated xx May 2017, is being circulated at the request of the delegation of Brazil.

---

This addendum aims at informing that the National Institute of Metrology, Quality and Technology (Inmetro) issued Ordinance 138, 22 May 2017, in order to reword articles 4 and 5, regarding the period after which manufactured, imported and commercialized automotive components of Motorcycles, Scooters, Mopeds, Trikes and Quadricycles will have to comply with conformity assessment procedures requirements through a compulsory third party certification, set by Ordinance 123, 19 March 2014 (Inmetro Ordinance No. 123, of March 19, 2014) (G / TBT / N / BRA / 549 / Add.1).

The proximity of term for the manufacturing and import period previously established and the publication of a new ABNT standard, which carries the need to promote adjustments that will affect the conformity assessment process and the accreditation infrastructure, were taken into consideration and periods were extended.
